EDUCATION

University of Florida

Bachelor of Science in Computer Science

Gainesville, FL

Aug. 2024 – May 2028

- GPA: 3.64
- Relevant Coursework: Data Structures & Algorithms, Discrete Structures, Programming Fundamentals 1 & 2

WORK EXPERIENCE

Mobile Developer

Feb 2025 – June 2025

Courselynx

Remote

- Built a media-sharing academic chat app that improved student collaboration, using **React Native** and **TypeScript**.
- Reduced information search time by implementing real-time search, notifications, and message threading.
- Integrated image and video preview into the chat system, improving media sharing UX and boosting engagement by **20%**.

Dental Sterilization Technician

May 2023 – Aug 2023

Smiles By Amy

St. Petersburg, FL

- Reduced prep errors by **10%** by managing tool sterilization and setup across a 5-person team.
- Maintained detailed sterilization logs to comply with health regulations, enhancing accountability in daily workflows.

PROJECTS

BrushUp | *PyTorch, Hugging Face, Flask, SQLAlchemy, React*

- Created an AI-powered drawing app that helped users improve key artistic skills by allowing them to generate custom images and either draw directly over them or use them as references, using **Stable Diffusion** and **Transformers**.
- Implemented secure authentication and personalized image management (upload, delete, rename), streamlining the user workflow via **Flask-Login**, **Bcrypt**, and **SQLite**.
- Optimized machine learning inference speed on Apple M1 chips using **Accelerate**, improving responsiveness for real-time image generation.

HealthConnect | *React, Flask, SQLAlchemy, SQLite*

- Built a matchmaking platform that connects healthcare professionals with high school students seeking verified certifications and volunteer hours, helping bridge a critical gap in medical education access.
- Designed a filterable opportunity system with user-specific dashboards, enhancing navigation and streamlining communication between applicants and providers.

ACTIVITIES

Software Engineer Club | *Workshop Lead*

Aug 2024 – Present

- Led a workshop on **Splunk**, teaching students how to analyze and visualize machine data.
- Enhanced web development skills through the **Clubfinity program**, building a YouTube mock-up to practice frontend development and responsive design.

Boca Ciega Soccer Team Captain | *Leadership*

Oct 2023 – Feb 2024

- Led a team of **18** during each practice and game, warming up and helping the players understand the coach's tactics.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS, C++, Java

Frameworks and Libraries: Flask, React, React Native, SQLAlchemy, PyTorch, Hugging Face, FastAPI, Splunk

Tools: Git, PyCharm, Jupyter Notebook, VS Code, Figma, SQLite, Accelerate

Other Skills: Bilingual in English and French
